

ILLICIT DISCHARGE HOTLINE

512-943-3330

REPORTABLE DISCHARGES

Water containing petroleum products, soap, chlorine, pesticides, sewage, animal waste, excessive silt, solvents, or trash.

EXEMPT DISCHARGES

Discharges from fire fighting activities

fire hydrant flushing

vehicle, external building, and pavement washwater where detergents and soaps are not used and where spills or leaks of toxic or hazardous materials have not occurred (unless all spilled material is removed.)

water used to control dust

potable water sources including waterline flushing

air conditioning condensate

uncontaminated ground water or spring water, including foundation or footing drains where flows are not contaminated with industrial materials such as solvents.

Any discharge covered by a separate TCEQ or TPDES permit

Remember to include the following information in your report:

- Specific street or road location within the county and address if available
- Type of waste dumped
- Date and time of the violation
- Your name and telephone number
(helpful for investigation and follow-up)
