PREA ANNUAL DATA REVIEW AND CORRECTIVE ACTION PLAN

January 31, 2019

To all whom shall read this notice greetings,

In accordance with PREA Standard 115.388 and Williamson County Juvenile Services Policy, The Juvenile Services Department has completed a review of the data derived from incidents occurring within the Williamson County Juvenile Services facility. This data showed that there were no substantiated or unsubstantiated allegations or reports of sexual abuse or sexual harassment during the period beginning January 1, 2018 and ending December 31, 2018. At this time no corrective action is required. Williamson County Juvenile Services continues to monitor the health, safety, and welfare of the residents we are charged with protecting.

The department will continue to conduct relevant annual training to better equip our staff in dealing with the diverse population we serve. As part of this annual training each staff member shall receive current information on PREA and related topics. New employees will continue to receive PREA training prior to performing supervision duties with our residents. Additionally, the department will provide residents with recurring education regarding their ability to protect themselves and report allegations of sexual abuse and sexual harassment.
